Department of Genetics  
University of Wisconsin  
Madison Wisc.

U.S.A.

Dear Josh :

I did not forget your request for information concerning our X-ray tube. Herewith enclosed are a) a picture; b) the characteristics (in French, somebody around you may translate them).

In the case you would purchase one, and if you deem it useful, I can help you as a local representative. You could place the order with the maker (see back of the picture), but send it to me.

I talked with Marcovich about his future plans. He will be through with his thesis around February. Then I'll apply for his appointment as a member of the Pasteur Institute. If this application is successful, Marcovich's departure to your country will be postponed to the Summer 1958. I'll keep you aware of what happens.

With kind regards to Esther and to you  
très amicalement.

*Raymond*
